Subject: Re: Speaking inquiry

Thank you very much [Removed]. I have a few more details to share with you can have more insight on the conference and what the church stands for as a whole.

The Diocese have always been involved in new and inspiring developments, organizing this conference is one of the few events we are co-ordinating in which helps us connect with people and turn their lives around positively. Inviting a speaker from overseas is something that will go along way in boosting the morals of our congregation and inspiring them, I am well aware real motivation is from inside, motivational talks only stimulates so as for the 'inside' motivation to exert to the exterior, this, we are looking forward to experiencing when you come for this conference. We are expecting upliftment and the overall boost in morale of attendees. The lecture will be published in this year's edition of our 'World Awareness' magazine which we are just launching and copies can be obtained at Pretoria office.

With a Church uniting as One Big Family, We have been able to draw people closer to the word and also try to teach them values with which they can survive the world. It is due to this age-long ritual that we have decided to organize a conference such as this since the doctrine of the Church lectures has evolved over the years we are proud to say we are keeping the hope alive! We will have over a thousand people in attendance.

We organized this seminar and workshop also in the hope of enlightening our congregation, to motivate them, mentor them on how to achieve set goals and how to grow despite all odds and remain steadfast, how to overcome personal and business obstacles and still remain standing after the storm. We had [Removed], author of [Removed] over from HongKong for a dinner speech on the 12th of December last year and it was very entertaining and spirit-filled. We are expecting the speech to last for about 60mins-90mins and a question & answer session thereafter. The event is billed to hold on the 8th - 10th of January next year, you are to choose which of the three days is convenient for you to speak and if you will be available to speak for the three days, we will be more than glad as long as it fits in to our budget.

You were fingered to speak at this event on the recommendation of our outreach program member in diaspora and after checking your credentials and after reading blogs about you, we received the Lords direction to invite you to speak in this event and we also believe you are more than capable to deliver in this occasion.

The conference theme carefully chosen by the Lords' inspiration due to the backdrop of the present situation here in South Africa and this year's Seminar has been tagged. 'Surpassing your limits: Attaining the unattainable'.

You can email us the keynote you would like to speak on as we would want you to be convenient with the keynote topic so we decided it would be better you choose it yourself as long as its motivational and inspiring! We will as well need your bio to put up on our website and start to design posters as well as hand bills.

We are offering USD 12,000.00 excluding all other expenses .This fee is the net speaking fee allocated by our sponsors.

All travel arrangements such as Flight fare, Speaking fee deposit as well as Hotel accommodation will be taken care of by us as soon as you honor this invitation. The events committee will send you all binding documents including a Letter of Invitation and Contract Agreement as well.

Email us in ample time and any questions you may have so we can move ahead.

You are blessed.
